NRC Log #45 Sold Out! The 45th edition of the *AM Radio Log* is SOLD OUT! The deadline to produce the 46th edition will be August 1, and it will be here before you know it! Anyone wishing to help proof a geographical area in the USA or Canada, just let me know. PLEASE, be one of the members who supports the accuracy of the *Log*, the hobby's premier publication, by contributing your updates. We do get updates from trade publications that we subscribe to, however, boots on the ground and BIC (Butt In Chair) observations are what makes the *AM Radio Log* shine.

The easiest way to proof the *Log* is for me to send a copy of a certain area's data to you for you to review and update, then you send it back to me. We can use either an Excel spreadsheet or a Word document. When you change a piece of data in a station's entry, simply change the font color to red so I will know what fields to update. Just let me know the area(s) you wish to proof and which format will work for you!

For snail mailers just drop me a note with the areas and I'll send a *Log*-type print out that can be annotated and returned via snail mail.

Email me at amlog@nationalradioclub.org or write NRC Log, P.O. Box 473251, Aurora, CO 80047-3251.

The *Log* will once again hit the streets sometime in August. I am still researching the printing and postage costs, so keep your eye here announcements when we're ready to take preorders... Wayne Heinen, Editor, *AM Radio Log*.

From the Publisher: Electronic subscribers – watch for a special *DXtra News* with baseball networks later this week. No room, full issue!

From the Archives

90 Years Ago: From the April 10, 1935 issue of *DX News*: Station KFPM-1310, a 15-watt station in Greenville TX that had been heard by many DXers, has surrendered its license due to economic conditions. 1310 was then a "graveyard" frequency.

75 Years Ago: From the April 8, 1950 issue of *DX News*: Gene Allen in Vallejo CA reports a new station, ZM2AP "Apia Radio" in Samoa on 1420

kHz, with a program in Polynesian except for an English sign-off at 0400 Eastern time, heard almost daily with QRM from WLKD in Sapporo, Japan.

50 Years Ago: From the April 7, 1975 issue of *DX News*: The Rochester *Times-Union* ran an article entitled "WHAM's Far-Out Listeners," about the many reception reports (some well written, and some samples of bad ones included as well) received from Finland, Australia, and many other places.

25 Years Ago: From the April 17, 2000 issue of *DX News*: Members discussed WCCO-830's application for a CP for an auxiliary site (which they are now in 2025 moving to permanently); WRHC-1550 was cited by the FCC for operating from its CP site rather than its never-used licensed site (and it's still doing so to this day, although with repeated STAs).

10 Years Ago: From the March 23, 2015 issue of *DX News*: Plans are underway for a joint NRC-IRCA-WTFDA-Decalomania convention July 10-12 this year in Fort Wayne, Indiana.

All *DX News* back issues through Volume 90 are available online at <https://nationalradioclub.org/dx-news-archives/>.

Please submit all reports in the format seen below. Send either within an email (preferred), or as an attachment in plain text. All times are Eastern Local Time (ELT)!! In some instances, minor editing may occur. Reports older than 30 days may be excluded at the editor's discretion. New members are especially welcome to report!! Remember . . . if you want your email address published, include your "OK" with your report.

We have a belated correction to Tim Hall's Border Inn report seen in previous editions and in DXtra News. It seems I was amiss in either publishing the corrected item incorrectly a second time or not at all! It is hoped we have amended our transgression by featuring it below. [My bad- DY].

Thanks to all who take time to submit their latest loggings to the column. Much appreciated! Remember to give yourself credit (XX-XX) after each logging!

- - - NOTES FROM CANADA - - -

Jon Pearkins jon@pearkins.com

Canada currently has a "caretaker government" federally, the term that the CRTC uses to describe the period between the announcement of a Federal Election and Election Day. The CRTC just announced that all upcoming hearings are postponed and will not be rescheduled until after election day, April 28.

A recent poll found that 78% of Canadians want to see the CBC continue to exist, which makes it difficult to understand why one of the two major contenders for Prime Minister will not change his position in favor of defunding the CBC.

Corus Radio, which owns major AM Talk stations CKNW-730 Vancouver BC, CHED-880 Edmonton AB, CHQR-770 Calgary AB, CJOB-630 Winnipeg MB and CFIQ-640 Richmond Hill ON, finally has enough good news to elevate its stock price, hopefully over the long term. Corus television programming, including cable channels, have been nominated for 45 Canadian Screen Awards. To avoid a sale of Corus to Quebecor, which would require a discounting of Corus' current debt, lenders have eased the borrowing and repayment terms of Corus debt, including the \$2 Billion paid to purchase the Global TV Network.

Humber College's Broadcasting – Radio program will end after the 2026 graduating class. It was founded in 1972 in Toronto by CHUM's Phil Stone.

- 600 CFQR QC Montreal – A recent station hire indicates that **CFQR is very interested in reception reports** and even has a dedicated Contact Form just for DX: <https://www.cfqr600.com/about-us/dx-reports/>
- 920 CKNX ON Wingham – Their application to flip to FM has triggered a CRTC "Call for comments on market capacity and the appropriateness of issuing a call for radio applications to serve Wingham, Ontario, and surrounding areas." AM-to-FM flips do not generally trigger one of these, but CKNX-FM applied to "use one of the last known FM frequencies available in this area." Owner Blackburn Media asked for "104.3 MHz (channel 282B) with an average radiated power (ERP) of 16,700 Watts (maximum ERP of 28,000 Watts)." CKNX is already preparing for its **100th anniversary next year**. They began in 1926 with the call letters 10BP. If you have any CKNX memorabilia, they would like to know at <https://cknx.ca/contests/2025/03/cknx-100th-anniversary/>. CKNX conducted a DX Test back on Monday morning, November 27, 1967, that was heard far and wide.
- 980 CKGO BC New Westminster – **Left the air** forever on March 11 somewhere between **1105** and **1950**, based on Bruce Portzer's nightly SDR recordings.
- 1150 CKOC ON Hamilton – Noted by a Rochester, New York DXer with much weaker than normal signal at night. The station's new owners appear to have finally corrected their six-tower night pattern to match what they licensed for: sending almost all their night-time 20 kW in a tight northern lobe.

--- U.S. STATION NEWS ---

- 670 KBOI ID Boise – 4/1 0105-0112 – Noted much weaker than normal, thanks to a hardware failure in the pattern change equipment, leaving them with 12.5 kW non-directional, instead of their usual North lobe at night that sends the equivalent of 100 kW+ towards me. WSCR Chicago was definitely there with Sports, but the mystery was a station playing solo piano quiet jazz, seemingly right hand-only piano playing. Best guess would be KLTT Commerce City, Colorado filling time in place of regularly scheduled 'Washington Watch.' Sadly, I slept through KBOI's scheduled silent period later in the night. (JP-AB)
- 1030 (KTWO) WY Casper – 3/11 0158-0201 – 50 kW Open Carrier detected from before I tuned in until after I tuned out. (JP-AB)
- 1180 KOFI MT Kalispell – 3/30 0658-0704 – Until the deep fade at **0703**, they sounded like they were **back to 10 kW** at night (but were not), which is not scheduled to happen until at least June. 'Stuck in the Middle' by Stealer's Wheel ended at **0659:30** with a male-voiced splitter: "We play your favorite songs from three decades: The 60s, 70s and 80s. KOFI" into 'Bend Me, Shape Me' by The American Breed. (JP-AB)
- 1260 (WFTW) FL Fort Walton Beach – After seeing a report on *radioINSIGHT* that this one-time employer of mine, about 50 years ago, has signed OFF, I emailed **Terry Krueger** who lives near this victim of low ratings, unlimited entertainment venues and distant management with the news. Minutes later **Terry** replied: "Wow! Indeed, it's silent (just checked). This leaves only one AMer in Okaloosa County: WJSB 1050 Crestview. WFTW's FM translator is in zombie open carrier mode. Virtually every channel is open here. And WFTW was never audible nights despite close proximity. Their signal was always crappy, even daytime. If I wanted to listen, the translator was local level." [BH-TX]

Birmingham's **WAYE-1220** was noticed off the air **03/06 – 03/20**. **WMMA-1480** was off only **03/06**. **WAPI-1070** was noticed off **03/10** and has been OFF ever since. [EB-AB]

--- UNIDS ---

- 750 unID - 4/6 0802 – With Town Hall News, 'Relief Factor,' news followed by PSAs until **0813**. Alone. My worst report ever! (JJR-MI)
- 980 unID - 3/11 0202 – Talk with antenna SSW, partially nulling CJME. Either KSPZ or KSVC, as definitely not CKGO's loop of "CKNW has moved to 730," even though they were reportedly still on the air. (JP-AB)
- 1230 unID - 3/8 0702 – Pretty sure this isn't something locally spurious, as never noted prior to this, and pointing almost E/W. Warbling, unstable gale force wind swooshing noise blob. Domestic? Or maybe at this time, could be a malfunctioning Mexican. (TK-FL)

- 1340 unID – 3/22 0555 – ‘Already Gone’ by the Eagles, then faded, and back briefly with Beatles ‘A Day In A Life’ and gone. (TK-FL)
- 1600 unID – 3/21 0700 – CBS News gongbong, into said news and immediately faded forever. (TK-FL)

--- PIRATE ACTIVITY ---

Album Rock Radio from Southeast Birmingham, ex: 1710, is testing new frequencies. Heard on 1610 on 03/13 @ 0933 with Chicago and Three Dog Night songs, and at 1320 with double ID by female robo-voice: “You’re listening to Album Rock Radio.” Still on low power as reception is already noise one mile from the QTH. Heard on 1630 on 03/18 @ 1348, stronger with 60’ wire. Heard on 1650 on 03/24 @ 1832 where they have stayed so far. Also heard on 03/31, 04/01 and 04/02. (EB-AL)

--- BORDER INN CORRECTION ---

- 1530 KZNX TX Creedmore – 10/26 0558 – Clobbering KFBK with regional Mexican music and “la raza” slogans, mentioning **KTXX-FM 104.9 and translator on 95.1, and secondary slogan “la que manda en Austin.”** Earlier this evening, they gave a bizarre mis-ID as “XEZR, La Sonora de Margarita” before giving their legal ID, in which the announcer seemed to stumble while reading the AM calls. Listed 220 Watts nights, but they are clearly running their 10 kW day power all night again. 1117 miles. (TRH-UT)

--- DX LOGGINGS ---

- 540 WXYG MN Sauk Rapids -3/23 0758 – “Album Rock WXYG” into an unknown song followed by ‘Radar Love’ by Golden Earring 30 minutes later. (JJR-MI)
- 540 KNMX NM Las Vegas – 3/23 0752 – “K-New Mexico,” SS, EE songs lost to WXYG. No CBK. (JJR-MI)
- 560 KBLU AZ Yuma – 2/23 0000 – Fair, with commercials, then TOH ID and FOX News. Other stations in there but no others understandable. (MT-BCS)
- 560 KZAC CA San Francisco – 2/22 2356 – Good, with ads, then TOH ID and into a college basketball game. SS station underneath. (MT-BCS)
- 560 KWTO MO Springfield – 3/9 0459+ – Last few seconds of ID, hearing only “. . . and 93.3” into FOX News and back under ACI from KLIF-570. This is the only 560 with a ‘93.3’ translator, so am assuming this was KWTO. **New for me**, as KLIF-570 splatters big time, all the time. (BH-TX)
- 560 KWTO MO Springfield – 3/22 0724 – “93-3 and AM 560 KWTO. Springfield’s place to talk!” Alone, loud! (JJR-MI)
- 560 CFOS ON Owen Sound – 3/21 0753 – “560CFOS.ca” mention, then “. . . soon to be 89.3 FM – CFOS.” Alone. Interesting. (JJR-MI)
- 570 KLAC CA Los Angeles – 2/23 0000s – ‘Vick’s Vaporcool’ ad, then TOH ID, then FOX Sports update. Fair. (MT-BCS)
- 580 KMJ CA Fresno – 2/23 0000 – Fair, with a Conservative talker, then TOH ID followed by FOX News. Top Story: ‘Pope in critical condition.’ Other stations in there, but not understandable. (MT-BCS)
- 600 KOGO CA San Diego – 2/23 0000 – Fair, in a big jumble, with KOGO the strongest with TOH ID and FOX News. There’s an ESPN affiliate underneath, likely KROD, but I cannot confirm. (MT-BCS)
- 600 WBOB FL Jacksonville – 4/1 0919 – Something showed up in the splatter from local WAGG-610 today: commercials with catchy, but unhelpful area code 777. After that, they aired a full ID that I would expect at ToH, but I’ll take it: “AM 600 WBOB Jacksonville 101.1 FM W266CX Fruit Cove, WBOB.” Talk about Wisconsin voters. Another 50 kW daytimer, but the next day it wasn’t there, so I’m glad I caught it. **New, for Florida #40.** (EB-AL)
- 600 WCHT MI Escanaba – 3/20 0659 – ‘America’s First News’ with “93-5” and ad for ‘Menard’s,’ and a LID for AM and their FM translator into local news. (JJR-MI)
- 610 KAVL CA Lancaster – 2/23 0000 – Very Poor in the noise, with “KAVL Lancaster, FOX Sports Radio,” then FOX Sports Update. (MT-BCS)
- 620 KTAR AZ Phoenix – 2/23 0000 – Fair, with TOH ID under a much stronger SS station being completely overtaken shortly after ID, then becoming dominant a few minutes later. (MT-BCS)
- 630 KPLY NV Reno – 2/23 0000 – Fair, with FOX Sports promos followed by TOH ID, then FOX Sports update. (MT-BCS)

- 660 KTNN AZ Window Rock – 2/23 0000 – Fair, with TOH ID, then Country music. I think there might be another ID in there but it's pretty muddy. (MT-BCS)
- 670 KIRN CA Simi Valley – 2/23 0000 – Fair, with unID music, then TOH ID into news in English (listed as Iranian). (MT-BCS)
- 670 KBOI ID Boise – 4/3 0235 – Chased for years, and finally logged, with promo for 'Red Eye Radio,' "NewsTalk" slogan, and call ID. Their signal peak on 669.991 was an important clue. Fair and steady. **Idaho #1 and state #37.** (MJ-QRO)
- 670 KMZQ NV Las Vegas – 2/23 0000 – Fair, with local ad, then TOH ID followed by Town Hall News. A music station is at nearly equal strength. (MT-BCS)
- 680 KNBR CA San Francisco – 2/23 0000 – Fair, With San Jose Earthquake vs. Salt Lake MLS game. No ID heard, but only affiliate on frequency. A SS station playing Tropical-type music occasionally comes to the top. (MT-BCS)
- 680 KFEQ MO Saint Joseph – 3/22 0729 – " . . . here in Missouri" alone. Loud! No CFOB today! (JJR-MI)
- 680 WPTF NC Raleigh – 3/30 0746 – 'North Carolina' mentions. I only seem to hear this on Sundays. Go figure! No CJOB. (JJR-WI)

- 700 CJLI AB Calgary – 3/23 0758 – Non-descript music, call letter ID, then more music. Rough copy with poor band conditions. (JW-CO)
- 710 KSPN CA Los Angeles – 2/22 2358 – Fair, with TOH ID then LA ads. Competing with several other stations, sometimes fading back but I'm unable to ID any others. (MT-BCS)
- 710 KNUS CO Denver – 2/23 0003 – Fair, with weather report from female presenter with Colorado sponsors, fading back fairly quickly. She mentions a call but it's unintelligible. Assumed. (MT-BCS)
- 720 WGN IL Chicago – 2/23 0003 – Fair, with ads, then station promo into news. Current temp is 30. Traffic report. Several mentions of "WGN." 1800 miles. (MT-BCS)
- 720 KFIR OR Sweet Home – 3/30 0706:30 – Male-voiced splitter: "K-F-I-R wherever you are," rhyming the R with 'Are.' First time heard in years and suspect they were on day power as they were significantly stronger than KEX-1190 Portland at the same time. (JP-AB)
- 730 WZGV NC Cramerton – 3/26 0759 – Usual ads: 'ED treatment'; 'Debt relief.' Legal ID for the AM and their translator. "ESPN Charlotte." (JJR-WI)

- 750 KAMA TX El Paso – 2/23 0006 – Fair, AI translation of a liner gives me "KAMA 750 and 92.7." (MT-BCS)
- 750 KOAL UT Price – 2/22 2358 – Fair, fighting with SS music with local ads, then "You're listening to Utah Jazz basketball on KOAL 107.3 FM and 750 AM." (MT-BCS)
- 760 KGB CA San Diego – 2/23 0000 – Fair, with 'Medicare Fraud' ad, then TOH ID followed by FOX Sports update. (MT-BCS)

- 800 WHOS AL Decatur – 3/19 1340 – Talk about men getting into fights. iHeart podcasts, WBHP ID. Ads and news at ToH, then ID: “This is 1230 WBHP Huntsville, 800 WHOS Decatur, an iHeart radio station.” So while still legally WHOS, they are already getting ready to be WBHP at month end. Fair signal on 100’ wire due north. (EB-AL)

- 560 CFOS ON, Owen Sound. Prepared card in six weeks, signed by Peter McKeown, GM, no return address, but sent to 270 9th Street East, Box 280, Owen Sound ON N4K 5P5. Nice to get, but a little disappointed because I wrote a nice letter about their switching off their AM operations soon, and how I had listened to them for many years. (JR-NY)
- 1440 CKJR AB, Wetaskiwin. PPC 4-1/2 months after 2nd follow-up, delayed undoubtedly by the postal strike. V/s Tamara Konrad, Business Manager. Address: Stingray Radio, 2394 W Edmonton Mall, 8882-170 St, Edmonton AB T5T 4M2. (JW-CO)
- 1410 KLFD MN, Litchfield. Prepared card in 20 days, from Steve Gretsche (no title), 234 N Sibley, Litchfield MN 55355. Even if this was using 500 watt day power, it's a great catch from Minnesota on a channel that is usually jammed by WPOP (and others), an even better catch with listed night power of 45 watts. But, of course, the signer left the power space on the card blank. (JR-NY)
- 1510 KCTE MO, Independence. PPC in 14 days; V/s illegible. Sent to 6721 W 121st Street, Leawood MO 66209. The address on the return envelope was the same except the city was given as Overland Park. (JW-CO)

STATION NEWS

- 1110 WMVX NH Salem** – Silent and has not been heard from in the past month. WMVX was last airing Spanish programming for the large Hispanic population in nearby Lowell, Lawrence, and Haverhill, MA. Before that it was an adult contemporary station, and in its time as WNNW, aired motivational talk. Under other call signs it formatted big band music, a nostalgia format, conservative talk, and Spanish stuff. Most recently it was carrying the WCCM-1490 Spanish talk “Impacto” feed as Costa – Eagle radio, the owner was trying to unload 1490 in Haverhill. This ill fated station began its life in 1977 as WVNH (Voice of New Hampshire), whose 5000 watt directional daytime only signal (from four towers) was east, out to sea. It covered little of the Granite State. Anyway, now it is covering none of the Granite State. **(TF-NH)**

Of these, it is clear that KVWC-1490 has been listed erroneously for months, and that KTUB-1600’s recent return to the air just hasn’t been reflected in the list yet. Other stations are known to be silent but have not notified the FCC as required by regulations.

Five of these stations – KRLC-1350, KVBV-1450, WTRI-1520, KREA-1540, and KTAT-1570 – have been silent for more than one year and – unless there has been some mistake and the stations have been on the air without notifying the FCC – their licenses will be cancelled automatically.

- 1557 **TAIWAN** *R.Taiwan International Chinese Channel, Kouhu* MAR 10 1225-1240 – Fair, with brief better peaks; man and woman conversing in Chinese. Signal was weak, but steady throughout the monitoring period. 300 kW at 7,005 miles. Taiwan #1. [Battaglino-CA]
- 1566 **SOUTH KOREA** *FEBC Korea/RFA/VOA/R.Teos, Jeju Island* MAR 8 1249-1303 – Good with very clear conversation between two males in what sounded like Korean – although it could very well have been Chinese (it was hard for me to tell the difference!), choral music, a female reading what sounded like the headlines, and then a female vocal tune with what sounded like choir accompaniment. 250 kW at 6,258 miles. South Korea #1. [Battaglino-CA]

MAR 23 0319 – “ABC Deportes, 660 AM y 92.1 FM; sabemos cómo se juega.” XEFZ at the Mountain King again, dominating from south with K index at 4, preceded by classic rock in English, i.e. music, not sports, and followed by “Can’t take my eyes off of you.” [Hauser-OK]

Note: GYDXA records are undergoing a periodic membership audit. Per club policy, records held by DXers who have left the club will be vacated (this does not apply to members who have passed away; their records are merely flagged with the traditional radio acronym "SK"). Once this task is complete (probably in a month or two), we will update the GYDXA web pages. Canadian DXers are especially encouraged to check for vacated records, as it appears a substantial number of Canadian records will be vacated as a result of the audit.

Receivers: Icom IC-7100 and a Qoseden DX-286. Antenna Chameleon TD Lite about 25 feet in the air.

1340 was the last MW frequency I needed in order to log a station on every AM frequency. On March 10, I had a nearly positive ID when I heard "BIN News." Checking on the internet, I found a BIN station on 1340 in Dayton, Ohio and one in Augusta, Georgia. It turned out it was the Augusta station. Now I have achieved my goal, at least one station on every AM frequency! It was hard work, but it was worth the effort. Now it is time to revisit other frequencies for second, third and fourth stations.

A couple days ago, I was tuning up the dial and found a strong station on 1470 and heard WRGA, Rome Georgia, another new station, the second on this frequency. I may not have the benefit of all the directional antennas that others have, but I still can do very well. On with more DX!

Jon Pearkins, Edmonton AB

A bunch of us 12-year-old DXers first met at our Vancouver area school's Hobby Show 60 years ago. One of us, Ted Wendland, just passed away on March 21, still DXing right up to the end. He had also amassed 20,000-plus collections each of Radio Stickers and 45 rpm records.

Ted and I had radio careers that started very similarly but ended very differently. We were both first on air at a local 5-watt pirate CFAY-1357.25, which was once heard in Seattle. Our first paid radio jobs were at competing local AM/FM clusters as Board Operators who also ran Automation machines: Ted at CKNW/CFMI-FM and me at CHQM AM & FM. Ted continued in Radio as a career until a mass layoff at CKNW/CFMI in the late 1990s, working mostly as Music Directors with stops at CJJC Langley BC and CHQR Calgary AB. I went to university and worked in Computing for a third of a century. In retirement, both of us focused on Western Canada broadcast history, working together on several projects. Ted lived in Keremeos BC for the past few years after spending all but a few years of his life in Greater Vancouver. I've lived in Edmonton since 1975.

Veries: none. So far this year I've heard 11 new stations. Last year I added 41 stations to the log. I haven't been very active lately but have sent several follow up reports including 3 new states. Does anyone else track counties heard? I do it for my home state. Here in FL there are 67 counties with MW station in 52.

So far I've heard 37. For the 15 unheard there are 10 with only 1 station, 3 with only 2 stations and 2 with 3 stations. I've seen that Radio Marti is back on. I've never heard them here but the Cubans sure are loud. Martin.

Going over some recent overnight IQ recordings, I noted a major opening here to Cuba on 3/27. While it's not that unusual to find several strong R. Rebelde and R. Progreso outlets on various frequencies below 700kHz, rarely do others show up above that and rarely do they remain dominant for as long as they did that night. I also added a few new domestics to my logbook, including WDER 1320, only my second station from NH, WFEA being a consistent pest here on 1370. Check the International and Domestic DX East columns for all my recent catches.

It seems to me that there is an increasing number of stations with a religious format, often belonging to the Relevant Radio or SRN networks. Add those to the many stations that have joined ESPN, FOX News etc. and there is little left to distinguish one station from another. I used to enjoy actually listening to programming, especially when it reflected the character of a locale, but with everything so homogenized, I have little patience for that anymore. The ability to make TOH IQ recordings means I don't have to listen to the same programs ad nauseam

Unreported Stations

One station was reported to DDXD in this issue for the first time since at least Volume 67 (1999-2000) – WMPW-970. Several others were reported for the first time since volumes 68-70, so a lot of good DX this issue! We are now down to 156 currently licensed, full-power AM stations in the United States and Canada which have not been reported to DDXD during this time. The last full list was published in issue 91-18 in July and will appear electronically shortly in the upcoming *DXtra News*.
